EDUCATION

Indian Institute of Information Technology

Bachelor of Engineering in Electronics and Communication

Bhopal, MP

Nov 2022 – May 2026

- **CGPA:** 8.17/10.0
- **Relevant Coursework:** Operating Systems, Data Structures and Algorithms, Object-Oriented Programming, Database Management System, Artificial Intelligence, Computer Networks

EXPERIENCE

HealMeRight

Full Stack Developer Intern

Dec 2024 – Apr 2025

- Architected template-and-variant recipe generation engine in Node.js to dynamically create personalized meal plans for users based on dietary allowances, enabling scalable content delivery across 50+ recipe templates
- Built asynchronous translation service using Redis Bull queue and AI4Bharat ML models to translate recipes into 22 Indian languages, reducing translation latency by 85% through fault-tolerant background processing

PROJECTS

AI Resume Builder | React, TailwindCSS, Express.js, MongoDB

[Live](#) | [GitHub](#)

- Engineered AI-powered resume builder with React, TailwindCSS, Node.js, Express, and MongoDB featuring live editing and template generation for 50+ test users
- Integrated Google Generative AI through secure backend routes to auto-generate summaries and skills achieving over 90% relevancy
- Implemented Clerk authentication for identity verification and session management using backend token middleware, strengthening security by 30%

Personal Finance Manager | React (Vite), Node.js, Express.js, Supabase PostgreSQL

[Live](#) | [GitHub](#)

- Created full-stack Personal Finance Manager with React (Vite), Node.js, and Supabase PostgreSQL delivering real-time budget tracking for 100+ sample entries
- Secured application with JWT authentication featuring bcrypt hashing and HTTP-only cookies for middleware-protected routes, eliminating unauthorized access by 100%
- Deployed modular REST APIs leveraging Express controllers and Sequelize ORM with parameterized PostgreSQL queries, decreasing query errors by 25%

Sorting Visualizer | JavaScript, HTML5, SCSS

[Live](#) | [GitHub](#)

- Constructed interactive web application showcasing 6 sorting algorithms with real-time visualization and adjustable array size for educational purposes
- Analyzed algorithm efficiency using time and space complexity metrics via interactive dashboards for arrays up to 300 elements
- Designed dual-theme interface with advanced CSS3 animations and accessibility features for mobile-first compatibility, elevating usability by 20%

POSITION OF RESPONSIBILITY

Google Developers Student Club

Web Dev Team

IIIT Bhopal

Dec 2024 – May 2025

IEEE Student Branch, IIIT Bhopal

Student Coordinator

Bhopal, MP

Aug 2023 – Aug 2024

TECHNOLOGIES

Languages: C, C++, Python, JavaScript (ES6+), TypeScript, Bash, Java

Frontend Dev: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend Dev & APIs: Node.js, Express.js, REST APIs, GraphQL (basic), JWT Authentication

Tools / Version Control: Git, GitHub, Firebase, Vercel, Docker (basic), Postman, CI/CD Pipelines

Databases/ORM: MongoDB, MySQL, PostgreSQL, Redis

ACHIEVEMENTS AND CERTIFICATIONS

- Secured 3rd position in Smart India Hackathon at IIIT Bhopal for developing job management chatbot solution [Certificate](#)
- Achieved 3-Star rating on [CodeChef](#) with maximum rating of 1631 and Pupil rank on [CodeForces](#) with maximum rating of 1381
- Ranked 458 globally in CodeChef Starters 212 Division 3 programming contest
- Solved 500+ problems in data structures and algorithms across LeetCode, CodeChef, and CodeForces platforms
